Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I use my Tracfone as an emergency tool, not as a toy. I am a homemaker, with no income of my own. I have a low cost way to feel a little safer when I am alone. I don't feel I should have to pay more when it is hard enough to afford the cards to keep my service. I chose Tracfone because I can buy the time I need and not have a contract or a bill due every month, even if I don't use my phone.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
